

CIRCA 1967  
REPRODUCTION

Top Guitarist VINCENT BELL is famed among the pros for innovation. That's why he says "DANELECTRO has presented the most new ideas over the years. They are usually first with the new sounds. It's top value for my money!"

announcing the all-new  
**DANE line**  
by *Danelectro*

- New, advanced custom features for easier, better play
- Same unmatched Danelectro More-for-the-Dollar value

The exciting new DANE line achieves the ultimate in personal playing ease — with unique "custom feel" adjustments — plus speedline, action-balanced design.

## DANE line EXTRA VALUE FEATURES include:

- Slim, NEVER-WARP NECK — steel beam reinforced; never needs adjustment. Slimline affords maximum fingering speed.
- SIMPLE STRING ACTION ADJUSTMENT at neck socket for selective, easy action.
- Special Danelectro-engineered ALL METAL MACHINE HEADS.
- Genuine BRAZILIAN ROSEWOOD FINGERBOARD.
- Precision-set FRETS — positive machine positioned.
- Force-fitted POSITION MARKERS permanent, not glued.
- Simple PICK-UP ADJUSTMENT
- Durable, hard LACQUER FINISH — resists damage, wear.
- ALL-WAY ADJUSTABLE BRIDGE — up, down, forward & back — plus any degree of angle.
- Famous DANELECTRO TOTAL SHIELDING from static and interference caused by neon, flashing lights, motors, other nearby noise sources.

### FIRST WITH ELECTRIC GUITAR "FIRSTS" FOR 20 YEARS INCLUDING:

FIRST Successful TREMOLO AMPLIFIER, introduced in — 1947

Originators of REVERBERATION for the Electric Guitar Industry — 1950

FIRST 6-STRING ELECTRIC BASS Guitar, introduced in — 1956

FIRST 12-STRING ELECTRIC GUITAR, introduced in — 1961

Over 20 years' experience — the reliability of an American-made product and components — rigid quality control (not oceans away) — add built-in value to every DANELECTRO Guitar and Amplifier.

20 years of electric guitar leadership

— in every instrument

MODEL DS-100

CADET

## Danelectro

### DS-100

One Hundred watts clear steady power. Music power rating over 150 watts. Six speakers, special design 10" Jensen, "Stow-away" amplifier cabinet nests into speaker cabinet for portability. Superb for electric bass on Channel One (3 controls: volume, bass, treble). Tremendous for guitar, etc. on Channel Two (6 controls: volume, bass, treble, reverb, vib. speed, vib. strength). Vertical column design for better sound projection and minimum floor space. Four rubber swivel wheels, and two side handles. Reverberation, extra wide range design. Vibrato newest smoothest design. Two pilot lights indicate standby or operate position. Weight 79 lbs., size 36" x 22" x 12".

Amplifier Model DS-100 ..... \$475.00

Slip Cover No. DCV-100 ..... 15.00

Two Button Foot Switch No. DFS-2 ..... 8.50

### CADET

This model offers the best combination of quality and economy to be found in the low-price field. Good looking functional design. Large cabinet measures 16" high, 15" wide, 6" deep. 6 inch Alnico V speaker; 3 tube AC-DC circuit. Tone control and volume control; 2 inputs. Separate on-off switch; separate panel-mounted fuse holder.

Amplifier Model D-123 ..... \$45.00

# VERSATILITY!

EXTRA WIDE RANGE • PERFECT SOUND PROJECTION  
• SPACE-SAVING STOWAWAY DESIGN

## DELUXE MUSICAL INSTRUMENT AMPLIFIERS

### DS-50

Fifty watts clear steady power. Music power over 75 watts. Three speakers, special design 10" Jensen. "Stow-away" amplifier cabinet nests into speaker cabinet for portability. Excellent for electric bass on Channel One (3 controls: volume, bass, treble, reverb, vib. speed, vib. strength). Vertical column design for better sound projection and minimum floor space. Four rubber swivel wheels, and two side handles. Reverberation, extra wide range design. Vibrato, newest smoothest design. Two pilot lights indicate standby or operate position. Weight 57 lbs.; size 31" x 18" x 12".

Amplifier Model DS-50 .....	\$350.00
Slip Cover No. DCV-50 .....	12.50
Two Button Foot Switch No. DFS-2 .....	8.50

### DM-10

Quality is obvious from the expensive vinyl covering and the elegant chrome control panel. Ten Watts music power. Special design 8 inch Jensen speaker. Full vibrato built in with controls for speed and strength and input for foot switch. Weight 16 lbs.; size 15½" x 17" x 7½".

Amplifier Model DM-10 .....	\$85.00
Slip Cover No. DCV-10 .....	9.00
One Button Foot Switch No. DFS-1 .....	4.25

### DM-25

Most compact two piece amplifier made, has all the advantages of a separate amplifier with the convenience of "stow-away" for portability. Twenty-five watts music power. Twelve inch Jensen special design speaker. Reverberation, extra wide range design. Vibrato, newest smoothest design. Two channels with 3 controls on Channel One and 6 controls on Channel Two provide utmost flexibility. Four input jacks, standby switch, ground switch, long life neon pilot light. Weight 32 lbs.; size 18" x 20" x 11".

Amplifier Model DM-25 .....	\$180.00
Slip Cover No. DCV-25 .....	10.00
Two Button Foot Switch No. DFS-2 .....	8.50

### DTR-40

The result of intensive development is this 40 watt all transistor amplifier. Full use is made of the special character of transistors resulting in a powerful amplifier which is light in weight, cool in operation, and requires no warm up time. Full vibrato with speed and strength controls. Two special design 10" speakers. Weight 29 lbs.; size 18½" x 23" x 10".

Amplifier Model DTR-40 .....	\$250.00
Slip Cover No. DCV-40 .....	11.00
One Button Foot Switch No. DFS-1 .....	4.25

### REVERBERATION UNIT

- use with any amplifier
- most beautiful effects
- select exact amount of reverberation
- multiple delaying springs

Uses the new Danelectro system of multiple delaying springs to obtain the most beautiful effects. Can create the illusion of vast echo chambers, or by turning the control the effect can be diminished to any desired degree.

Extremely simple to use with any amplifier. Just plug instrument or mike into the Reverb Box, and plug cord from Reverb Box into amplifier. Operates on AC. Has self-contained power supply.

Light and sturdy, this unit contains no motors, belts, tapes, etc. and is not subject to the maintenance or mechanical service problems of such moving parts.

Standard Model 9100 .....	\$69.00
Remote Control Cord No. 1885 .....	4.25

## CONVERTIBLE

**ACOUSTIC/ELECTRIC.** As a non-electric, this model produces clear sustained tones. The special pickup kit may be added if and when desired, to convert to electric guitar. Simple installation. Predrilled holes have decorative inserts.

**GUITAR WITHOUT PICKUP . . .** Uses standard Danelectro neck. Fully adjustable bridge.

Blonde Model 5005 ..... \$45

**PICKUP KIT** includes all controls and 10 ft. cord. Especially designed for Model 5005 guitar. Not for use with any other make or model. Model 9010 ..... \$20

**GUITAR WITH PICKUP . . .** Same as 5005 with Pickup 9010 completely assembled at the factory. May be used with or without amplification.

Blonde Model 5015 ..... \$65

Hard Shell Case No. 9842 ..... 30

or

Zippered Canvas Bag No. 9800 10

## GUITARLIN

This new instrument is a guitar with fingerboard extended deep into the body. 31 frets combine the guitar and mandolin range. Tuned and played as a guitar with regular guitar strings. Guitar tone in lower register shades to mandolin in upper register.

Bronze Sunburst Model 4123 \$150

Hard Shell Case No. 9842 ..... 30

## LONG HORN BASS

Continued refinements have resulted in a superb instrument. Used in many recent recordings, T.V. programs and motion pictures. Available in two models, 4 string or 6 string, in bronze and white sunburst.

4 STRING BASS Model 4423 \$150

6 STRING BASS Model 4623 150

Hard Shell Case No. 9842 ..... 30

## DOUBLE NECK

Guitar and bass. Compact thin body design, overall size 17½" x 39" is smaller than some concert model guitars. Separate tone and volume controls for each neck. Three way switch connects either neck alone or both together. All frets within easy reach. White sunburst.

DOUBLE-NECK Model 3923 ..... \$175

HARD SHELL CASE Model 9943 35
